

# STOLZ

ENGINEERED  
TO YOUR NEEDS

## Belt Conveyor

The belt conveyor is designed to handle and extract granular and powdery products.

The product is handled in a linear way over long distances, horizontally or sloped, with capacities up to 1600 m<sup>3</sup>/h.

For applications not included in this range, our Design Offices are qualified to develop specific conveyors meeting all requirements.

### FEATURES

- Pulley and belt scrapers
- Automatic or screw tension with counterweight
- Antistatic (ISO284) and self-extinguishing belts (ISO340)
- All types of rollers

### ACCESSOIRES

- Protection intempéries
- Chariot verseur mobile, 1 ou 2 sorties

## OPTIONS

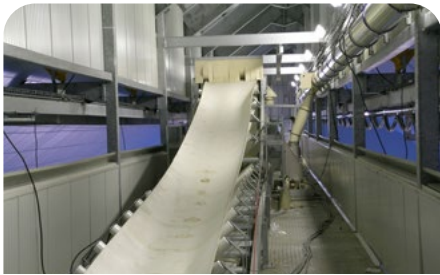

- Dedusting filter at feeding inlet or discharge outlet
- Tripper with built-in dedusting filters

## SAFETY DEVICES

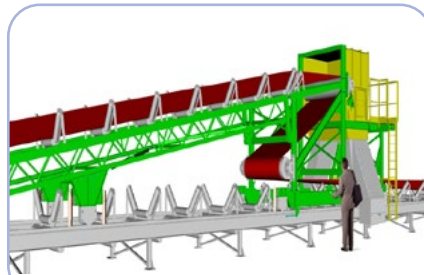

- ATEX compliance 94/9/CE on demand
- Belt misalignment control
- Rotation control
- Overflow detection
- Product flow detection
- Emergency stop with cable
