OUR PURPOSE

A photograph of a man carrying a young girl on his shoulders, both looking out over a vast field of sunflowers under a blue sky. The image is overlaid with a semi-transparent blue filter and white diagonal lines.

We enable the creation of quality
food, feed and biofuel,
providing a better future for all.

**A GLOBAL COMPANY
WITH A CUSTOMIZED SERVICE** /

STOLZ

STOLZ IS A LEADING GLOBAL PROVIDER FOR THE GRAIN HANDLING, FEED AND FOOD INDUSTRIES.

Based in Hauts de France, Stolz's business is to provide agri-food industrialists with solutions and equipment enabling them to store, handle, and process their granular or powdery raw materials.

Stolz is, above all, a team of men and women dedicated to the success of your company. A customized approach with tailored-made solutions is provided to meet your specific requirements. You will be supported from the design through the installation.

Stolz also has an international presence, bringing you the full power of the Desmet organization.

STOLZ KNOW - HOW FOR ALL YOUR PROJECTS

1 INNOVATIVE DESIGNER

Our in-house technical office can meet your specific requirements. Our teams constantly seek innovation in order to meet performance requirements and anticipate future needs.

2 SKILLED MANUFACTURER

Our modern and high-performance machinery, combined with the skilled expertise of our French workshop, enables us to produce high-quality customized equipment at industrial rates.

3 EFFICIENT INSTALLER

Our installation team will assemble the machines at your plant to ensure fast and efficient commissioning.

OUR STRENGTH BECOMES YOUR ASSET

ENGINEERED
TO YOUR NEEDS

A MODERN PILOT HALL

The Desmet R&D Innovation Center has been designed to conduct tests on pilot units and real equipment under industrial conditions and in complete confidentiality.

Equipped with a grinding hall and a preparation hall, the pilot hall allows trials on new processes on new seed and powder processes.

A third building is dedicated to research on solvent extraction. A laboratory is also available to conduct precise analysis of test results and provide reliable reports based on scientific data.

ACHIEVE EXCELLENCE IN YOUR INDUSTRY WITH STOLZ

ANIMAL NUTRITION

As the core business of Stolz, we supply the main markets: livestock, fish feed, pet food, etc...

AGRO-INDUSTRY

Thanks to our expertise, we operate in various industries such as human food, sugar, miling, malting, wood, cement manufacture, seeds, and more.

CEREAL STORAGE

We design solutions from small to very large throughputs, from product reception to loading.

BIOFUELS

Stolz is involved in the process of converting flour into biofuel.

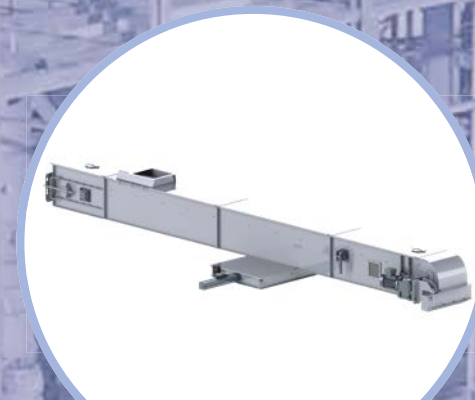

Mixer
